

The screenshot shows the Keil uVision IDE interface. The top menu bar includes File, Edit, View, Project, Flash, Debug, Peripherals, Tools, SVCS, Window, and Help. The toolbar contains various icons for file operations, editing, and debugging. The 'Registers' window on the left lists registers r0 through r7, Sys, a, b, sp, sp_max, dpr, PC, states, sec, and psw, along with their current values. The main window displays the disassembly of the 'emexp14.c' file. The assembly code for 'main' and 'UART_Init' is shown. The 'UART_Init' function is highlighted in yellow. The 'emexp14.c' file is open, showing the source code for 'main' and 'UART_Init'. The 'main' function calls 'UART_Init' and prints 'Hello World!'. The 'UART_Init' function initializes the UART module. The 'Project' window at the bottom shows the command 'unnnng with Code Size Limit: 2K' and the path 'C:\Users\Senthil Kumar\Downloads\Objects\emexp14'.
